# EMPLOYMENT HISTORY

### Lead Developer, Vanna digital agency                Nairobi

Aug 2018 — Feb 2020

- Maintained and created websites and online marketing programs for clients.
- Hosted and maintained systems for clients including virtual machones and cloud solutions
- I was also responsible for pitching new projects to clients and equally finding new business for the company.

### Software engineer, Sancom Limited & E-kraal                Nairobi

Aug 2019 — Present

- Worked as a senior front end developer, working on the client side of a big data solution. My main role was to provide the users with the platform to create, upload, manage and visualize large sums of data.
- I was also responsible for creating visualizations for the analyzed data using data analysis tools such as d3, agGrid and Fusion charts.
- I was also responsible for creating mapping techniques used in visualizing GeoData.
- I was also responsible for analysis and comparison of financial data including Mpesa statements, Bank statements and Kra statements to provide insights to users.
- I also worked as part of an agile system that boosted productivity and punctuality.

### Backend developer, Go digital Africa                Nairobi

Feb 2021 — Sep 2022

- My main role was the creation and maintenance of a secure and reliable payments module allowing users to make and receive payments for commercial use. This was done using Nodejs and RESTful API's.
- I was also responsible for creating authentication modules and log maintenance modules.
- I was also in charge of maintaining system security by following strict security procedures.

# INTERNSHIPS

### Sofware developer, Symatech labs limited                    Nairobi

Jan 2017 — Apr 2017

- Created and maintained websites and web modules for clients under instruction from the team leader.

# EXTRA-CURRICULAR ACTIVITIES

### Volunteer, Shrine of Mary, help of christians              Nairobi

Jan 2016 — Apr 2020

Volunteered in migration of church records to a digital system.
